

Cubaña is South Africa's only authentic Latino Social Caffé and eatery which provides the services of a Cocktail Bar and Cigar Lounge with a unique flavoursome cuisine

Cigars*Fumaros

Cubaña took little time to establish itself as the biggest on premises trader of cigars in South Africa. We offer all kinds of cigars, from aromatic flavoured cigars that suit main stream demands, to elite Cuban and Dominican Cigars for the connoisseur. Our cigar ladies are not merely eye candy but are also equipped with the knowledge to impress the most stubborn of cigar aficionados. Cubaña's own brand of cigars have received applaudable recognition.

Food*Allure

This is another cornerstone to our unique enterprise. Our menu is comprised of a wide variety of meals ranging from Re-energising Breakfasts and Business Baskets to Scrumptious Supper dishes. A virtual cult of business people practically convert lounges and seating to their 'office'. Some even cover breakfast and lunch in our stores in a single-seating. Our party platters are definitely something to look forward to, providing delicious finger food. Dishes do not leave our kitchens unless correctly prepared. Attention to detail is essential. We use absolutely no sub-standard products. Our kitchens are spring cleaned daily to ensure absolute hygiene.

History* Legacy

Cubaña started as a single cell business and within a year and a half the first franchised store was opened, simply because we could not expand beyond the geographical restrictions of our first store. Claremont was the first franchised store and it was such a huge success that it only took us half the time to open the next one. The next store was Tableview and this is one of our biggest success stories to date. We managed to raise the profile of Tableview from a hole in the wall to a destination with little comparison in the Western Cape. Needless to say, but thereafter Head Office got bombarded with franchise applications. Our Executive though, opted to halt any further growth in the group and gave us all two years to perfect the brand and all that goes with it. Today, amongst other businesses, Cubaña is nothing less than 10 super-stores strong with an applications-list twice as long as before. We are proud of what we have created and are not prepared to let anyone have a part of it unless we are absolutely sure that our passion is alike.
